## Company Profile

**Industry Sector:** Medical Device, Protective Equipment

**Company Overview:** Alba-Technic, LLC is committed to developing shock absorbing technologies and incorporating them into products for personal protective products. Our products provide maximum performance, while maintaining style and comfort.

**Target Market(s):** Hospitals, clinics and nursing home facilities, senior living communities, athletic associations and leagues, youth, high school and collegiate sports programs.

## Key Value Drivers

**Technology\*:** A patented, shock absorbing material with an outer layer that diverts the energy from a fall or hit. The material is normally soft and compliant, but upon impact, the outer layer changes into a hard shell to spread the energy across an inner honeycomb layer thus protecting the user from injury.

**Competitive Advantage:** Our technology has tunable performance; it is low profile, attractive, flexible and lightweight.

**Plan & Strategy:** Licensing agreements, after initial successful pilots at KOL's.

## Management

**Leadership:** Jim Ferguson, Founder & CEO  
Helen Loos, RPh., Chairperson

### Scientific Advisory Board:

**Vincent Caccese Ph.D., P.E.,** Professor of Engineering, University of Maine

**Steven Castle, M.D.,** Professor of Geriatric Medicine, UCLA School of Medicine; Associate Director, Clinical Geriatrics, VA Greater Los Angeles

**Eric Mitchell, M.D., MA FACPE, CPE**

**Jop Blom, Ph.D., PT, MTC, CMP**

**Michael Lucas,** Risk Management and Insurance Advisor.

## Product Pipeline

**1. Pipeline One:** SMARTY® headgear made with patented shock absorbing material.

**2. Pipeline Two:** Hip Protector, made with patented shock absorbing material.

**3. Pipeline Three:** Personal Protective Products including helmet liners and body armor made with patented shock absorbing material.
